

DATE: 10/18/2024 FRIDAY

PARTICIPANTS: Beau & Johnny & Montse

LOCATION: Viasat Engineering Pavilion (In-Person)

3:15PM - Meeting Starts

3:20 - Spend time on the use case tables to make sure the entire group has a mutual understanding on what each function does

3:34 - Check with professor on clarity on the amount of “user interaction” our functions should need

3:48 - Work out mock ups of what the interface will look like, going over what functions would go where

3:53 - Start working on Lab 8

4:37 - Confer with sister group to figure out how to make this diagram

4:45 - Professor goes over final questions

4:50PM - Meeting Ended

TOTAL TIME: 1hr 35 min
